DETAILED ACTION

Prelim./Amdt.

1. Receipt is acknowledged of the amendment filed 02/06/2006.
2. Claims 2-12 are pending, and claim 1 has been cancelled.

Response to Arguments

3. Applicant's arguments with respect to claims 2-12 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 6-9 and 10-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Hsieh et al. (US 5,826,975).
6. Re claims 6-9 and 10-12: Hsieh discloses a coupler (64 in Fig. 6) adapted to removably secure a hollow lamp shade (60 in Fig. 6) to a lamp base (10), the coupler including a head portion (68) for seating within the lamp shade (60) and a cup (64) adapted to extend between the shade (60) and the base and unitary with the head portion (68). Further, Hsieh discloses a ring (68) of the head portion adapted to abut against the interior of the shade. Furthermore, Hsieh discloses a fastening member including a threaded bore and a screw (83 in Fig. 9).

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 2-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over W. P. Oppelt (US 2,567,780) in view of J. G. Godoy (US 1,890,378).

9. Re claims 2-5: Oppelt discloses a lamp comprising a base (4 in Fig. 1), a shade (10) and a coupler (12) between the base (4) and the shade (10) removably securing the shade to the base, wherein the base includes a neck (the shaded portion above the base 4) and the shade includes a lip (9), the coupler including a cup (2 in Fig. 2) extending into the neck. The lip of the Oppelt's shade does not sit in the neck. Godoy also discloses a lamp having a base (10) and a shade (26), and the base has a neck (20). Godoy further shows the lip portion of the shade adapted to sit in the neck. It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify Oppelt's shade to sit in the neck as Godoy taught in order to remove the shade from the lamp conveniently.
